Chronic Neck Pain Study

Are you age 65 or older with chronic neck pain?

We are looking for older adults with chronic neck pain to participate in a study that collects information about their neck pain through questionnaires.

Participants will receive $40 for attending each visit, for a total of $80.

You may be eligible to participate if you:

- Are age 65 or older
- Have neck pain lasting over 3 months
- Are able to complete questionnaires about your health

The study involves attending 2 study visits, in which you will complete questionnaires about your demographics, neck pain, other symptoms, and opinions about acupuncture.

Your participation is voluntary, and your information will be kept confidential.

To learn more, please contact Dr. Yosun Hwang at (470) 207-1775 or email: research@vuim.edu

RAND

This multi-site study is being conducted by the National University of Natural Medicine, Virginia University of Integrative Medicine, Colorado College of Chinese Medicine, University of Bridgeport Acupuncture Institute, and the 5 Element Institute.

This effort is supported and funded by a pilot grant through the RAND Research Across Complementary and Integrative Health Institutions (REACH) Center and the NCMIC Foundation.

IRB# LB060226 Principal Investigator: Dr. Lita Buttolph
